Krimi / Thriller, englisch

Charlie Wynwood and Silas Nash have been best friends since they could walk. They've been in love since the age of fourteen. But as of this morning... they are complete strangers. Their first kiss, their first fight, the moment they fell in love... every memory has vanished. Now Charlie and Silas must work together to uncover the truth about what happened to them and why. But the more they learn about the couple they used to be...the more they question why they were ever together to begin with.

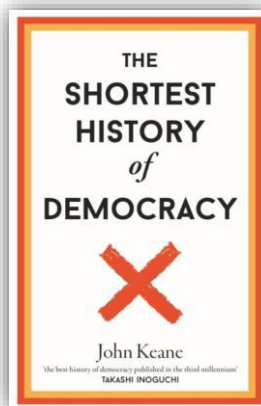

A gripping, twisty, romantic mystery unlike any other.

Today, democracy may appear to be in decline, but Keane shows that this isn't the whole story. In many places, such as Taiwan and Senegal, India and South Africa, distinctly local varieties are coming into being. Yet it's impossible to ignore the proliferation of populist strongmen on every continent. Is democracy past its sell-by date, or is it time to embrace the true, radical potential of an ancient idea?

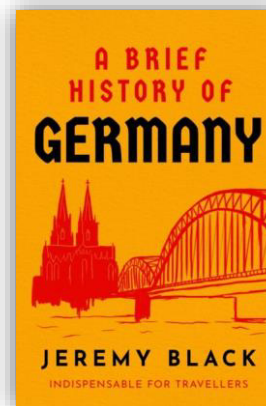

The invaluable series of accessible histories continues with an incisive account of the democratic process from Ancient Greece to the present day.

Concise yet explorative.
