When Holly applies for a job at the Paradise - one of the city's oldest cinemas - she thinks it will be like any other shift work. She cleans toilets, sweeps popcorn, avoids the belligerent old owner, Iris, and is ignored by her aloof but tight-knit colleagues who seem as much a part of the building as its fraying carpets and endless dirt. Dreadful, lonely weeks pass while she longs for their approval, a silent voyeur. So when she finally gains the trust of this cryptic band of oddballs, Holly transforms from silent drudge to rebellious insider and gradually she too becomes part of the Paradise - unearthing its secrets...

Sarajevo, spring 1992. Each night, nationalist gangs erect barricades, splitting the diverse city into ethnic enclaves; each morning, the residents - whether Muslim, Croat or Serb - push the makeshift barriers aside. When violence finally spills over, Zora sends her husband and elderly mother to safety with her daughter in England. Reluctant to believe that hostilities will last more than a handful of weeks, she stays behind while the city falls under siege.

Longlisted for the Women's Prize for Fiction 2023.

Sachbuch Biografie, englisch

In the 1790s an extraordinary group of friends changed the world. Disappointed by the French Revolution's rapid collapse into tyranny, what they wanted was nothing less than a revolution of the mind. Based in the small German town of Jena, through poetry, drama, philosophy and science, they transformed the way we think about ourselves and the world around us. They were the first Romantics.

From the author of "The Invention of Nature".

Williams' uniquely devastating portrayals of modern life have been captivating readers and writers for decades. Here, for the first time, Williams' thirty-three best stories are available in a single volume, together with thirteen new stories that show a writer continuing to mould the form into something strange and new. Bleak but funny, real but surreal, domestic but dangerous, familiar but enigmatic, Joy Williams' stories fray away the fabric at the edge of ordinary experience to reveal the loneliness at the heart of human life.
