Sachbuch Geschichte, englisch

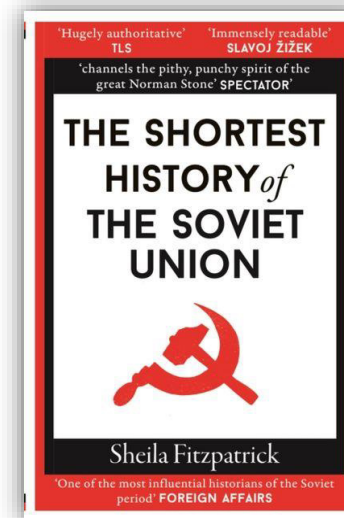

Amidst the turbulence and invasions, upheaval and dissent that characterise British history, one thing has remained remarkably stable. Although there are other monarchies, Britain's Crown stands out due to the continuity of its traditions, and its ability to adapt. In this sprightly commentary on the Crown's 1,800-year-long story, Stephen Bates provides a dazzling insight into Royal custom and ritual, whilst depicting the individuals behind the myth with compassion and wit.

Sachbuch Geschichte, englisch

From revolution and Lenin to Stalin's Terror, from World War II to glasnost, this is an authoritative distillation of 75 years of communist rule, and the disintegration of an empire. Fitzpatrick charts the fate of countries often left out of Soviet histories, gives vivid portraits of key figures, and traces the aftermath of the regime's sudden collapse. She explores the rise of the oligarchs, the rebirth of the Church and the enigmatic figure of Vladimir Putin.
